

WATERTIGHT "T" CONNECTOR 3 POLES IP67

Ref. A0011

Watertight 3-pole 2.5mm² IP67 shunt. It is made of nylon, which gives the watertight connector a high resistance to the climatic variety. In addition, it is waterproof and resistant to both humidity and dust, thanks to its high IP67 protection rating. It enables any connection to be made easily, quickly and safely, by bridging the power connections.
