

**CCT touch dimmer mechanism for 4 zone LED lighting - SUNRICHER - DALI**

**Ref. SR-2300TS-CCT-EU**

The SR-2300TS-DIM-CCT is a CCT touch switch that allows you to select the brightness and color of our LED lights. With DALI output for dimming and switching 4 light zones. The touch panel, designed with high strength tempered glass, offers smooth dimming and flicker-free switching functions. The LED dimmer is easy to install, with installation manual in the box and compatible with various 12-24V-DC DALI products. It can control up to 4 zones with 2 customizable scenes to store and playback in each zone. Controls a multitude of LED luminaires.
