

## Alarm sensor, door and window openings | SONOFF DW2-wi-fi

### Ref. SONOFFDW2-WIFI

The SONOFF DW2-wi-fi is a SONOFF SMART HOME sensor that detects the opening of a door or window and sends a signal to your smartphone through the eWeLink application, compatible with all SONOFF Wi Fi products. When you receive the alarm about the opening of a door or window you can activate from your phone any action you want to perform, for example turn on a light. You can program it to be done automatically when a certain door or window is opened or closed. Sensor installation is simple, just apply it on the desired door or window.

### Datos del producto
