

## Ultra slim power supply 24V 30W IP20

### Ref. B1562-30

Power supply for LED luminaires with a rated power of 30W. The power supply system is designed to connect LED lamps with voltage of 24V and maximum 1.25A. Transformer 24v 30w Input: 230V Output: 24V Power: 30W 1.25A IP20

### Datos del producto

|                         |                                       |
|-------------------------|---------------------------------------|
| Power (W)               | 30                                    |
| Nominal Voltage (V)     | 220 - 240 V/AC                        |
| Frequency (Hz)          | 50 - 60                               |
| Power factor (cosφ)     | 0.9                                   |
| Dimensions (mm) LxLxh   | 265X50X15                             |
| Material                | Plastic                               |
| Use Outdoor             | No                                    |
| IP                      | IP20                                  |
| Temperature range       | -20°C ~ +40°C                         |
| Frequency of use        | Normal                                |
| Lifetime (h)            | 20000                                 |
| Energy efficiency class | A+ (2021)                             |
| Certificates            | CE, ROHS                              |
| Warranty                | According to legal guarantee: 2 years |
| Output voltage (V)      | 24V                                   |
| Maximum intensity (A)   | 1.25                                  |
