

Square cardan type downlight ring for QR111 or AR111 bulb - Cutting 155 x 155 mm

### Ref. B1016

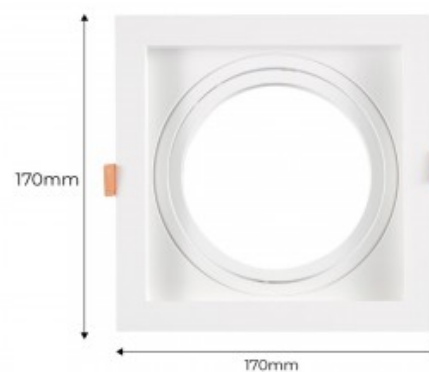

Polycarbonate cardan type tilting ring for a QR111 or AR111 LED bulb. It has a tilting structure that allows the luminaire to be oriented towards the desired point. It also incorporates an accessory that allows two rings to be fitted together. Additional rings can be added later to form larger structures, according to the needs of each project. Due to its characteristics, it is an ideal product for use in commercial installations such as clothing stores, food stores, accessory stores, etc., although it can also be used in domestic installations. Available in black and white. Includes screws and a metal accessory to embed two rings. \*\* Does not include LED bulb \*\*.
