

Magnetic rail 20mm integration 48V - 2 meters

Ref. CMI-200

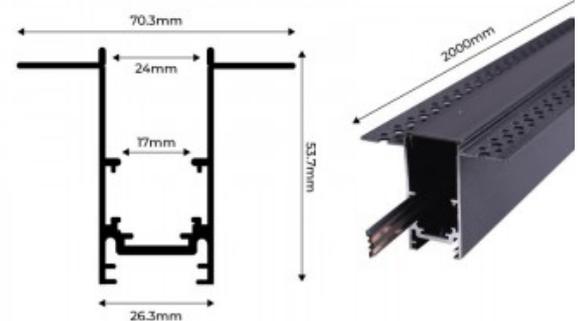

Magnetic integration rail made of high quality aluminum, available in white and black color. It allows to place magnetic LED spotlights in a very simple way, according to the needs of each project. It offers numerous configuration possibilities and can be installed both in ceilings and in plasterboard walls, without any risk for the users as it works at low voltage (48V). **It includes a plastic cover to cover the free surface between luminaires and two end caps**.
