

2 in 1 PIR motion sensor (surface/embeddable) - 360° - IP20

Ref. SP45

The 2-in-1 PIR motion sensor can detect the presence of motion at a coverage angle of 360°, a distance of 16 meters and a height of 2.2 to 4 meters. It controls the switching on and off of one or several LED luminaires (up to 1000W total) achieving great energy savings. It can be installed either surface mounted or recessed. This sensor allows adjusting different parameters such as range, light level and time to suit the user's needs.
