

Easy to Make Your Curtain Smart

Install this curtain motor on the original curtain track, clamp the clip, and go!

SONOFF Intelligent Curtain Motor - Zigbee - 5V DC/1A

Ref. SONOFFZBCURTAIN

The SONOFF Zigbee smart curtain motor is designed to automate curtain control. It allows control from anywhere via compatible mobile app, remote control or voice command. It is possible to program specific times to open and close the curtains, adjust the position of the curtains and thus control the amount of light entering the home. The curtains can also be controlled by other smart devices. Easy to install, it does not require making any changes to the current curtain, or using tools. The high-speed motor can move curtains up to 8 kg and includes a 4000mAh rechargeable battery, with great autonomy.

Save Time, Effort and Money

One person can install it

No drilling required, no rewiring around windows. You can make the curtains smart by using your spare time at home, saving you the effort of installation!
