

Staircase light controller with PIR sensor

Ref. SK-ES32

The staircase light controller with PIR sensor is an advanced solution for lighting corridors and stairs efficiently. It incorporates a PIR motion sensor and a twilight sensor to optimize energy consumption. It features 32 output channels to control low-voltage LED strip lights, as well as an SPI signal output to control 2 groups of digital RGB LED strips or ICs. The user interface is simple thanks to an OLED display and control buttons. In addition, colors, speed and brightness can be adjusted, and it has a quick self-test function. It's also compatible with IR sensors for further automation.

Wiring Diagram

Datos del producto

| | |
|-----------------------|---------------------------------------|
| Nominal Voltage (V) | 5-24V |
| Sensor | Yes |
| Dimensions (mm) Lxlxh | 186 x 86 x 25.50 |
| Use Outdoor | No |
| IP | IP20 |
| Certificates | CE, ROHS |
| Warranty | According to legal guarantee: 2 years |
| Connectivity | DMX |
| Number of channels | 32 |
| Maximum intensity (A) | 1A/CH |
